### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William Baxter, Reg. No. 41,606, on November 20<sup>th</sup>, 2007.

The application has been amended as follows:

#### **IN THE CLAIMS:**

Claim 28, line 7: before the term "device" insert: -- clamping --

#### ***Allowable Subject Matter***

Claims 5, 8 and 20-33 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 5, 8 and 20 are allowed for reasons as stated in the previous Office action dated September 22<sup>nd</sup>, 2006.

The prior art of record neither teaches nor reasonably suggests a cathode circuit for an imaging tube having at least one voltage clamping device coupled to a first set of high voltage elements between a receptacle and a terminal board, and further having at least one voltage clamping device coupled to a second set of high voltage elements between the terminal board and a filament, where the first set of voltage elements couple the receptacle to the terminal board, and the second set of voltage elements couple the terminal board to the filament, as required by the combination as claimed in claim 21.

Claims 22-27 are allowed by virtue of their dependency.

The prior art of record neither teaches nor reasonably suggests a cathode assembly for an imaging tube that has at least one voltage clamping device coupled to a first set of high voltage elements, and further having at least one voltage clamping device coupled to a second set of high voltage elements, where the first set of high voltage elements are part of a cathode post, and the second set of high voltage elements are part of a cathode cup, where the cathode cup is coupled to the cathode post, as required by the combination as claimed in claim 28.

Claims 29-33 are allowed by virtue of their dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
